

HEALTH NIMHD – RCMI

Addictions Research and Cancer Prevention

COMMUNITY ENGAGEMENT CORE (CEC) SERVICES

OFFERED TO AFFILIATED INVESTIGATORS

The CEC works with the HEALTH Center for Addictions Research and Cancer Prevention (HEALTH–RCMI) to develop and maintain strong community relationships and to advance the inclusion of our diverse community members in cutting-edge health research to address addictions and cancer disparities. Available services and resources are broadly categorized within: Project Design Expertise, Project Execution Expertise, Dissemination Expertise, and Community Outreach.

Project Design

- Program Evaluation of Community Impact/Reach
- Community Access and/or Letters of Support
- Community Research Advisory Board Feedback

Project Execution

- Compliance Consultation
- Recruitment and Retention Support
- Partnership Development

Dissemination

- Dissemination to Special Audiences
- Social Media Reach Evaluation
- Policy-Based Translation of Results

Community Outreach

- Participation in Community Events
- Formal Presentations (e.g. town hall meetings)
- Health Promotion Resources

To learn more about the CEC, visit the [HEALTH–RCMI](#) website. To request CEC services, please submit a request via the HEALTH–RCMI [NITRO Ticketing Service Request Portal](#). For additional inquiries, please email HEALTHrcmi@central.uh.edu.

COMMUNITY ENGAGEMENT CORE (CEC) SERVICES

OFFERED TO AFFILIATED COMMUNITY STAKEHOLDERS

Stakeholder Services

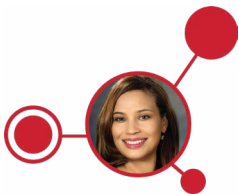

- Provision of Meeting Space
- Grant Writing
- Program Evaluation
- Specialized Training and Health Education
- Ethics Consultation (e.g. grant applications)
- Resource Dissemination
- Access to Academic Resources (e.g. journal articles)
- Participation in Community Events

Guided Principles and Practice

- Creation of innovative, empirically grounded, culturally informed, and community-embedded solutions that mitigate health disparities nationwide
- Reflection of community voice in research design, implementation, and dissemination to achieve optimal impact
- Our stakeholders' resources and strengths are necessary to fulfill our mission and are integral to creating sustainable health solutions
- Respect for others in all activities associated with the Center
- Iterative and transparent community stakeholder relationships guide our work and maximize collaborative benefits
- Responsible dissemination practices guard against the potential for misrepresentation of work and are tailored to the audience of interest
